An entire new program will be presented and judging from the Washington (D. ## TIME IS THE TEST.

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon find out when misrepresentations are made, and merit alone will stand the test of time.

Maysville people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

W. H. Paul, carpenter by trade, living at 333 East Third street, Maysville, Ky., says:

"I value Doan's Kidney Pills as highly today as I did when I first used them in 1896. I got a box then and used it for pain in my back and other evidences of a disordered condition of the kidneys which had given me much trouble for two years or more. This remedy acted promptly and I was soon cured. I did not notice any of the difficulties until some four years later, or about a year ago. I again procured Doan's Kidney Pills at J. Jas. Wood & Son's Drugstore and all symptoms of the trouble were quickly and thoroughly removed. Since then I have not noticed any signs of trouble of any kind arising from my back or kidneys. I most cheerfully re-indorse Doan's Kidney Pills, for they are certainly worthy of recommendation."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

Rev. Baker P. Lee, Dean of Christ Church Cathedral, Lexington, has accepted a call to Christ Church at Los Angeles, California.

## \$100 Reward, \$100.

The readers of this paper will be pleased to hear that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Miscellaneous.	410 57
Total.	\$2,113 16

The White School Fund received during the past month \$13.10; the Colored School Fund \$28; total \$41.10.

The following permit was granted: John Bradford, to erect a stable on the rear of his lot in Broadway and Vine streets, Sixth Ward. W. S. Yazell, City Physician, reported the Almshouse in excellent condition. One discharged, James Burger, and none admitted. Seven emergency bonds of \$500 each of 1904 not being issued were by order of Council destroyed.

Mr. Nichols, representing the Ohio River and Columbus Railway, appeared before Council and presented his case. He wanted this city to secure the right of way between Aberdeen and Ripley and further that this city give the Company a free ferry franchise, as they desire to transfer their cars on the ferry and run them right onto the L. and N. track. A crossing is expected to be made at Lexington street. The matter was referred to the Turnpikes and Railroads Committee.

The saloon license of John Dersch was transferred to R. R. Forst & Co.

The matter of opening up Chester street to the Carmel pike has been a thorn in the side of the city for years. The city, through F. Devine as agent, has in consideration of \$175 bought the intervening lot from Robert Hill and wife and will now proceed to open a much needed thoroughfare.

Ben T. Smith was reappointed Street Commissioner for the ensuing year at a salary of \$50 per month.

The request of Miss Emma Campbell in regard to a reduction of taxes on her property was reported back by the Committee to which it was referred, stating that they did not have the power to raise or reduce taxes and that they be discharged from further consideration of same. The request was granted and the

matter placed in the hands of the City Attorney for solution, and on motion Haywood was included for investigation.

A voluminous report by the City Engineer was read in regard to West End pavements—Ort, Italy, Lane and others—and adopted. The same will be acted on at the next meeting of Council.

The new hose house in the West End was reported completed. Member Frost was empowered to erect a pole twenty-five feet high for the purpose of drying and cleaning hose. He also wanted a cupola, stating that Harry Owens had agreed to donate a bell for the purpose of sounding alarms. The cupola part was carried over to the next meeting of Council.

Mr. Fred W. Bauer, having bought a farm and become a granger, tendered his resignation as a member from the Second Ward, the same being accepted.

An ordinance authorizing the issuing of thirty bonds of the denomination of \$500 each was read and adopted.

The East Enders being very modest in their demands, want more light, and perhaps they need it. The matter was referred to the Light Committee.

The Chairman of the Ways and Means Committee was authorized to sell five \$500 emergency bonds to meet current expenses.

When Mr. Crowell arose and called the attention of Council to the dangerous condition of the old McDonald House in Front street, known as the "Silver Moon," he evidently was not aware that he was applying a match to a powder magazine.

City Attorney Wool was on his feet in an instant and protested that the gentleman did not know what he was talking about, the building, so to speak, was as strong as a bull and sound as a dollar; that its walls were a couple of feet thick and the whole locked together with iron chains. For a time things looked as though there would be a scrap, but order was brought out of chaos by a sharp rap of the gavel by the presiding officer, and peace once again hovered over the salons.

The matter of macadamizing Cottage street, and here by way of parenthesis THE LEDGER would add that it is very badly needed—was brought up and continued for further investigation.

Nominations to fill the vacancy in the Second Ward being in order and no other name being presented—the matter being cut and dried—Mr. Andrew Clooney was nominated and elected without a dissenting vote.

A motion to adjourn was put and carried.

# Important Carpet Facts

Spring is here for March has introduced it by the calendar, even if the confirmation of the thermometer is lacking. Your thoughts naturally turn to the freshening and adornment of the house of which Carpets and Rugs are always the important adjunct. Let us consider the question from your viewpoint and ours.

## THE CUSTOMER.

Three prime considerations govern your carpet and rug selections—

First—Quality. You justly expect service and long life in carpets of guaranteed merit.

Second—Design. It is your right to demand the latest patterns, the most stylish color combinations.

Third—Price. Business acumen prompts buying where you find the lowest price consistent with quality and style.

## THE MERCHANT.

We are governed by the same vital points in buying—

First—and foremost quality, the basic principle of our business reputation. We demand wear-well carpets that will make life-long customers for us.

Second—Patterns that cannot fail to gratify the most fastidious taste because they are the work of world famous carpet designers.

Third—Price. Direct from the mills is the watchword of our carpet buying. From the loom to our yardstick eliminates the middlemen's profit.

We Cannot Possibly Fail to Interest You. Give Us the Opportunity.

Old-Time Democracy

The Folly of "Government Ownership" of the Railways

Louisville Evening Post.

The Hon. William E. Chandler has sent a letter to the United States Senate advising that body to pass a railroad rate bill if they would save the bacon of the Republican party, keep Mr. Bryan out of the White House and preserve the country from numerous other things that Mr. Chandler conceives to be evils, and some of which are evils. The colored vote is one of the things Mr. Chandler wants taken care of, though if he will carefully examine that vote in many of the Northern states he will find that it is now most expensively cared for by campaign committees, and costs more and more year by year. Mr. Chandler also fears for the dogma of Protection unless the rate bill is passed.

It would be a great thing to get rid of Protection that costs the American people many millions every year. He is also distressed lest the Gold Standard be injured in the shuffles. The last speech made in the United States Senate in favor of an impossible double standard came from this same William E. Chandler, who wanted England, France and Germany to join in the business of partial repudiation and demonetization of gold. As for the Gold Standard we have—it is no great shakes. It is handicapped by nearly half a billion that is more or less flat, though full legal tender. In 1853 the Democrats made a heap better Gold Standard, and if there had been no war between the states the Gold Standard and Free-trade would have been as much of a settled policy with us as it was with England.

It will be a long time before the Bryanized Democracy gets control of the Government, and there is no occasion for a man as shrewd

as Mr. Chandler is known to be to be as much alarmed as Mr. Chandler seems to be. What ails Mr. Chandler is that he agrees with Bryan, La Follette and the other agitators about this railroad mess that is now a political issue, and soon to be the paramount, perhaps the sole issue. In his letter to the Senate he virtually advocates it, or something worse, and says the people can make \$300,000,000 a year by it. It is true that to do this Mr. Chandler proposes to confiscate one-third of the property of the railroads. A gentleman down in Tennessee, who writes over the word "Tiberius," proposes to confiscate two-thirds of that property, and I have no doubt the woods are full of luminous and patriotic political economists, who would see "Tiberius's" cut and go him another cut deeper, or the whole thing. Why take two or three bites at a cherry? Why confiscate one-third or two-thirds, when it is just as easy and just as honest to confiscate the whole thing?

It is a mistaken idea that the railroads belong to a few men, and if they did it would be just as wicked to confiscate them as it would be if they belonged to 40,000,000 men. In morals, the Government has no more right to confiscate a railroad than I have to steal a horse, and should have no more inclination.

Does anybody suppose that it would be possible to annihilate four billions of securities that are now earning \$200,000,000 without a financial, political and social convulsion? According to Mr. Chandler the twelve billions now earn \$600,000,000, and he would reduce that income to \$240,000,000. Then does anybody suppose the Government could operate the railroads at anything like the same expense the companies operate them? This Government never yet built a house that an individual could not have built for half the money, and you take the Pennsylvania Railroad and turn it over to the Government to run and it will cost the Government twice as much to run it as it costs the present company.

And then the politics of it. Here is a row like a dozen wildcats over rural delivery carriers in politics, and there is going to be a big scandal about it. How will it be when the hundreds of thousands now working for the railroads come to work for the Government? What sort of a row and what sort of a scandal will you have then? What will a common man's vote avail against the innumerable political clubs that will be formed of railroad employees? Mr. Tiberius does not propose to operate the railroads. He would have the Government seize them, annihilate nine billions of their value, pay four billions for them, and declare them public highways. Then he complacently remarks that private transportation competition would place rates exactly where they belong. Who would compete with the Pullman Palace Car Company? You would have to raise at least \$50,000,000 to start it, and I would rather undertake to win money at Sharkey's saloon playing cards than to try to compete with the Pullman Company in transporting passengers from place to place.

Of course, the Government, under Mr. Tiberius's plan, will have to keep the roads in repair. That will take an army. There might be great confusion, great inconvenience and great danger in the schedules. There would be a thousand difficulties not now considered. If the Government is going into the business, let it go the whole hog, and pay the market value for the roads and own and operate them. I am ready to agree that that is what will be when men and women become civilized, but that's 500 years ahead of us. Meanwhile, let the Government mind its own business. It will have its hands full if it does that. Mr. Tiberius tells a deal about a "private function" and a "private corporation" that is as confusing and as incomprehensible to my poor understanding as a story of a cock and a bull, but I can't see why the Government shall not fix the price of a ton of coal that the railroad hauls, if it fixes the price the railroad shall charge for the service of hauling it. Is transporting a thing a work of greater dignity than the production of it?

Let the Government keep itself in the Government's place. There never was a railroad in politics because it used to be, but because it had to be. Railroads are in politics because certain men, some good, some vicious, dragged them into politics. The agitation has reached the point that it is seriously proposed to buy or confiscate the roads. It is certain

GERTRUDE JENKINS.

New Strength— Increased Vigor.

It is easy to get into a run down state and stay that way and forget what real health is.

We never appreciate real health when we have it.

After feeling all run down, nervous and tired out, month after month, most people simply hope against hope that they will feel better soon.

Instead of trying to do something to help themselves feel better, they depend on hope.

The only way to really help yourself is to get new strength and increased vigor.

Win back your right to feel strong and well every day.

A well person ought to wake up with a laugh every morning.

Health, vigor, determination, courage—in fact, all that makes life worth living depends upon a healthy supply of Nerve Force.

Paine's Celery Compound builds up the supply of Nerve Force, it revives the old force and makes new. It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.

Gertrude Jenkins allowed herself to gradually sink into nervous prostration, one of the final states that tired, abused nerves reach. Her experience is valuable to all those who feel "run down," "tired out" and are not helping themselves to get back to real health.

"Paine's Celery Compound cured me of nervous prostration when I was so weak and used up that I had to lie down part of each day. The doctor advised me to go away and take a vacation to build up, but I could not give the time or money. Paine's Celery Compound built me up within two weeks—my headaches disappeared, my appetite returned and the aches and pains gave way to new strength, life and increased vigor. I enjoy perfect health today and used less than five bottles of Celery Compound, so know by experience how valuable it is."—Gertrude Jenkins, 714-63d St., Chicago, Ill. (Member Ladies of the Maccabees.)

"Nervousness," "nervous prostration," "nerve decline,"—that run-down, worn-out feeling,—nine times in ten are simply the result of prejudice, carelessness, or ignorance.

Prof. Phelps, of Dartmouth University, was the first physician to enunciate the principle which to-day is recognized as one of the foundations of the science of medicine,—the great enlightening truth, that the nerve system rules all the body's health.

He sought and found the food that builds up and restores the nerves—his celery formula, which has become famous as Paine's Celery Compound—the celebrated nerve vitalizer and tonic.

Paine's Celery Compound is giving New Nerve Force to thousands every day by feeding and restoring the nerves to their full strength. It never fails to build up the run down system to full, ruddy health.

Two days' treatment proves its marvelous power. It braces you up. You feel better at once.

Sick headache, palpitation, dizziness, and heartburn are usually relieved by a single dose of Paine's Celery Compound.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this.—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

**Champion Liniment For Rheumatism.**  
Charles Drake, a Mail Carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the store keeper here recommended this remedy, and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. True application gives prompt relief, and its continued use for a short time will produce a permanent cure. For sale by all Druggists.

An investigation by Konrad has shown that the anthrax bacillus may survive in water for three and a half years and the typhoid bacillus for more than 600 days.

## If Constipated, Do This.

This offer may not appear again. There is no catch about it. If Mull's Grape Tonic does not positively cure Constipation you are out nothing, as you may have the first bottle free. If it cures, which it will, tell others; that is all we ask. No remedy has ever before been known to cure Constipation permanently. Mull's Grape Tonic is not a physic. It is unlike anything you have ever used. It cures Constipation. If it did not this offer would ruin us. The process is gradual but sure. You know from your own experience that physics, like Pilla, Salts, Castor Oil, Mineral Waters, Injections, etc., make you worse. Where can Mull's Grape Tonic be had? Your Druggist sells it. The 81 bottle contains nearly three times the 50c size, but if you will write today to Mull's Grape Tonic Co., 217 Third Avenue, Rock Island, Ill., and give Druggist's name, you will receive the first bottle free with full instructions. This gives you a chance to prove to you at our expense that it is a wonderful remedy and places you under no obligation to invest a penny. Only tell your friends about it.

## SAY!

You people who have been buying river coal all winter, have you noticed your pile lately? It's going down mighty fast, isn't it? Well, now, that is caused by the ice in it melting. In our coal you don't get any of that. You get nothing but nice, clean coal arriving from the mines most every day. Then our coal is worth a trial, isn't it? Call up 69 and we will tell you more about it. Remember, we also handle Salt, Sand and Baled Hay.

Yours truly,

W. R. DAVIS,  
Limestone Street.
